Having been involved in the transportation industry since 2014, I transitioned to private chauffeur services in 2020. My previous experience with prestigious hotels and restaurants in Paris enabled me to deliver services combining discretion, punctuality, and excellent presentation — a significant differentiator between taxi drivers and private chauffeurs.

"Our fight today is for tomorrow."

To ensure consistent availability, I have assembled a team of quality chauffeurs to provide our clients with a seamless service managed by a single point of contact.

ABOUT VOTRE CHAUFFEUR ABC ECO-RESPONSIBLE DRIVER

Our company's mission is to relieve clients of the "burden" of transportation, whether for simple transfers or large-scale events such as seminars, team-building activities, year-end celebrations, or group receptions.

Our expertise in this field allows us to handle prestigious events, even beyond the Montpellier region. We have been fortunate to participate in events such as the Paris 2024 Olympics for Adidas, the Cannes Film Festival, Haute Couture shows, and Fashion Week.

Locally, we collaborate with Royal Canin in Aimargues and several prestigious hotels and estates in the region.

OUR SERVICES

- Simple Transfers:

For your employees, clients, visitors, or associates, we manage pre-booked reservations for all types of journeys: simple transfers, multi-stop trips, and round-trips.

We ensure personalized pickups at train stations or airports, meeting passengers directly in the terminal with a tablet displaying their name or company, depending on the required level of discretion.

- Vehicle Rentals:

Vehicles are pre-selected based on client needs and provided for a specified duration.

Clients can explore the Montpellier region or enjoy a restaurant evening without worrying about transportation.

We are particularly attentive to business tourism, which allows companies to provide their clients with exceptional service.

- Seminars and Team Building:

Every company organizes various events throughout the year that require specific logistics, which can sometimes become challenging when managing all the involved service providers.

We strive to find the most sustainable and suitable solution for the requirements of these events, ensuring the full coordination of your event.

After carefully considering the constraints related to schedules, locations, needs, and, of course, budgets, our team, drawing on its experience, will be able to guide you effectively through your project.

With access to up to 50 premium sedans and vans, we can accommodate large groups. Additionally, we provide minibuses and prestige coaches:

- **Minibuses** : 16 to 35 passengers
- **Coaches** : 50 to 96 passengers (doubledecker)

Event coordinators are assigned to oversee each project onsite, ensuring a single point of contact at all times

- VIP Service:

Every company has a brand image to uphold, and we understand the crucial role we play in creating a strong first impression for your clients.

We offer a specially designed premium VIP service for your most important passengers.

In addition to personalized airport greetings, our chauffeurs are trained to assist passengers with door opening, offer bottled water or sodas, refreshing wipes, confectionery, and, when necessary, digital tablets for longer journeys.

For this service, our vehicles are meticulously selected, and we primarily work with Mercedes. However, we occasionally offer Tesla models to accommodate individual preferences.

This is the ultimate personalized service in our range of offerings.
